SEE THE BIGGER PICTURE WITH SE3 VIRTUAL TOURS

SE3 Virtual Tours Rental

In today's economic climate the need to reign in spending is certainly a worthy consideration. Which is why at SE3 we've designed a simple rental pricing structure to ensure you can still capitalise from the benefits of having an interactive virtual tour application without paying a large sum of money at outset.

Here's how it works:

First we determine how many shooting days are needed to capture your venue. Each day costs a nominal fee of **£320** and is limited to the capture of 10 locations within one venue. Thereafter, the virtual tour application is compiled in the normal way and integrated to a fully branded micro-site page. The micro-site page is hosted by us and seamlessly linked to your website.

Each month we charge a hosting fee of **£130** with the **first month free of charge**. The rental period is a minimum of six-months, which includes the complementary month.

As part of the rental service, we will supply analytical information detailing the performance of your virtual tour micro-site and a secure data capture service for prospective clients to request brochure information.

That's it, as simple as a mobile phone contract without the hassle of an offshore call centre!

Buy Out

It is highly likely the performance of the virtual tour exceeds your expectations and you'll wish to take ownership of the application and end the rental agreement. In this respect, it is possible to buy out the remaining time on the rental agreement and receive the virtual tour files. Customers whose rental period has expired need only give one week's notice to receive the web ready files.

Cancellation of the Rental

If you feel the virtual tour is not adding value to your business it is possible to cancel the rental agreement. Customers who wish to cancel their rental agreement within the six-month period are required to buy-out the remaining contract and customers whose rental period has expired need only give one week's notice.

Guarantee

We are confident at least half of your web traffic (that visit the relevant page on your website) will click through to the virtual tour application. However, if you can demonstrate that after 4 months this is not the case, we will remove the application from our server and cancel the rental contract at no extra charge.
